

ABOUT DRUG INTERACTIONS

Drug Interactions from The Medical Letter provides users with an unbiased resource to quickly search and find potentially life-threatening interactions between drugs. Some features of this continuously updated, interactive online database include:

- Over 43,000 detailed drug-drug and drug-herb interaction monographs
- Significance ratings - all interactions are ranked by seriousness and need for intervention
- A detailed discussion of the evidence supporting the potential interaction and an explanation of the mechanism by which the interaction occurs
- Detailed recommendations about how best to avoid or manage potential interactions
- Information about related drugs - easily find out whether other drugs in the same class, or drugs used for the same indication, would interact in a similar way
- References that support the evidence are provided within each monograph

The Medical Letter uses a team of pharmacists who create and update drug information. Drug information with monographs are updated no less than every 2 months. If the FDA releases critical information on drugs and their interactions, data will be updated in TDS Health within 48 hours.

HOW TO ACCESS

Access your institution's TDS Health subscription as you would normally. Find Drug Interactions from The Medical Letter under Resources above the search box. Or, you can access the product on a panel on the TDS Health home page.

The screenshot displays the TDS Health website interface. At the top, the 'tds health' logo is on the left, and 'Provided by: TDS Internal' is on the right. Below the logo, there are navigation tabs for 'Resources', 'Titles', and 'Profile'. A search bar is located on the right side of the top navigation bar, with a 'Log Out' button next to it. A dropdown menu is open under the 'Resources' tab, listing various resources. An orange arrow points from the 'Drug Interactions from The Medical Letter®' item in the dropdown menu to the 'Drug Interactions' panel on the right. The 'Drug Interactions' panel features a search box with the placeholder text 'Enter a drug name' and a description: 'Drug Interactions from The Medical Letter® provides you with an unbiased resource to quickly search and find potentially life-threatening interactions between a variety of drugs.' Below the description, it says 'powered by The Medical Letter® and TDS Health'. There is also a 'mobile Apps' section visible on the left side of the panel, with an orange arrow pointing to it.
