Available to those subscribers of the Essential Evidence Plus (EE+) product from TDS Health and powered by STAT!Ref, Daily POEMs are e-mail alerts that identify the most valid, relevant research to help you practice.

Monthly, the complete set is compiled and sent for additional summary review. Each Daily POEM is also added to the Daily POEMs database in EE+, for easy future reference.

Ongoing since 1996, EE+ editors now review more than 1,200 studies monthly from more than 100 medical journals, presenting only the best and most relevant as POEMs. The acclaimed POEMs process applies specific criteria for validity and relevance to clinical practice. About 1 in 40 studies qualifies.
