

AI-POWERED RISK ASSESSMENT BY SUBJECT AREA

Take the guesswork out of identifying the subject areas where your learners are most at risk with groundbreaking AI-powered Risk Assessment performance reporting, providing a high-level understanding of learners in need of remediation.

Subject Risk Distribution

- 40% On track
- 20% Needs improvement
- 30% At risk
- 10% Not enough data

WHAT IS RISK ASSESSMENT?

Risk assessment is a performance data metric that uses AI technology to predict the level of risk a user is at per subject area based on a number of factors. The risk status can be categorized as At Risk, Needs Improvement, On Track, or Not enough data.

All Subjects | At Risk | Needs Improvement | On Track | Not Enough Data New At Risk Quiz

Includes results from all quiz modes

Subject	Risk Category	Score	Correct	Incorrect	Unanswered	Avg Time	Actions
Ante/Intra/Postpartum and Neonatal Care	Not enough data	0% <small>5% reviewed</small>	5	1	197	0:04	Review
Coordinated Care	At risk	0% <small>10% reviewed</small>	3	8	556	0:01	Review
Gerontology	Needs improvement	0% <small>5% reviewed</small>	2	1	86	0:04	Review

How is Risk Assessment Calculated?

Using AI-driven technology, risk categories are determined based on each learner's demonstrated performance on the assessments they are taking on the platform in comparison to other learners. To calculate this, we used formulas to generate risk categories based on factors that influence learner performance such as questions attempted, correctly answered questions, question difficulty level, and time taken using data from our learners between 2017 and 2023.

Uncover the Why Behind Your Predicted Risk Category

Gain valuable insights into each learner's mastery of each subject area and the determining factors that lead to each risk category.

Needs Improvement	19%
<ul style="list-style-type: none"> • Low score on Easy Questions • Low score on Moderate Questions 	68%
Not Enough Data	29%

Custom Risk Category Quizzes

Users can create personalized quizzes comprised of practice questions from within their At Risk subject areas, making it simple to focus on bridging knowledge gaps.
