

MRI Online Remote Fellowships

MRI Online's Remote Fellowships expose you to the most commonly diagnosed cases in a subspecialty. These courses will improve your diagnostic accuracy and increase your reading speed. During the course, you will read 25-50 proctored cases and receive personal feedback from a fellowship trained radiologist.

25-50 proctored cases (5 per week)

Pre-course video lectures and on-demand case review

Personal feedback on each case report from a fellowship trained radiologist

Gold Standard reports

25 AMA PRA Category 1 Credit(s)[™]
