Scheduling Nurse to Patients

PATIENT MANAGEMENT & DELEGATION

Provides practice setting acuity levels, scheduling patients to nurses, delegating tasks to assistants, and prioritizing care.

› Learners act as Charge Nurse to work with 56 patients.

› Five levels of progressive complexity.

› Plan, coordinate and evaluate nursing resources while managing high levels of responsibility.

› Review how each decision impacts patient outcomes and the healthcare organization.

Learners can earn
4-7 clinical hours

Aligns with AACN Essentials*, QSEN Competencies, and NCLEX categories
