

**We Care About Student Success. Just Like You.**

Picmonic is a radically different visual learning approach that engages students better than textbooks. Through unforgettable stories and characters that form durable mental scaffoldings, student learning outcomes increase, helping you as an educator to nurture students who excel in school, score higher on tests, and dominate exams like the National Physical Therapy Examination (NPTE®).

**Engaged Students Excel**

Our vast library aligns with your curriculum so educators can quickly add Picmonics to lecture slides or assign material for review. Students come to class more prepared, remembering the critical knowledge required to pass exams.

**Better Insights, Better Outcomes**

The Faculty Analytics Dashboard allows for easy tracking of student progress by time or subject. This built-in low-stakes assessment can be used as an intervention tool for struggling students.

**Valuable Time-Saving Tool for Educators**

Easily integrates with Learning Management System apps for Canvas, Blackboard, Moodle, and D2L Brightspace, while offering single sign-on and automated grade book data syncing.

**Efficient and Highly Effective.**

- 2-3 Minute **Mnemonic Videos**
- Thousands of **Multiple-Choice Questions** and **Adaptive Daily Quizzes**
- Built-In **Spaced Repetition**
- Real **Medical Imagery** Alongside **Consistent Characters**
- **Customizable** Content
- **Mobile Apps**

System Disorders  
Pathophysiology  
Physical Conditions  
Differential Diagnosis

Equipment Review  
Safety Precautions  
Red Flags to Monitor  
Pharmacological Management and Side Effects

Musculoskeletal  
Neuromuscular  
Metabolic & Endocrine  
Integumentary  
**+5 More**

**What PT Students are Saying**

I was shocked at how much **information and high yield details** I was able to recall using Picmonic. I can picture a lot of the Picmonics now and remember the details **months later!**

**- Katrina, PT Student  
New York College of Osteopathic  
Medicine of NYIT**

As a first-year physical therapy student, the amount of content we are learning is very dense. Picmonic is a wonderful resource that makes studying fun! I'd recommend it to any student looking for an enjoyable, yet educational, break from the books!!

**-Brook W., PT Student**

**Features for Educators**

With **premium access**, educators can evaluate then integrate Picmonic's video-quiz lessons into their curriculum, helping to engage students and providing a valuable time-saving early intervention tool.
