

We Care About Student Success. Just Like You.

Picmonic is a radically different visual learning approach that engages students better than textbooks. Through unforgettable stories and characters that form durable mental scaffoldings, student learning outcomes increase, helping you as an educator to nurture students who excel in school, score higher on exams, and dominate board exams including the **National Registry** exam.

Engaged Students Excel

Our vast library aligns with your curriculum so educators can quickly add Picmonics to lecture slides or assign material for review. Students come to class more prepared, remembering the critical knowledge required to pass exams.

Better Insights, Better Outcomes

The Faculty Analytics Dashboard allows for easy tracking of student progress by time or subject. This built-in low-stakes assessment can be used as an intervention tool for struggling students.

Valuable Time-Saving Tool for Educators

Easily integrates with Learning Management System apps for Canvas, Blackboard, Moodle, and D2L Brightspace, while offering single sign-on and automated grade book data syncing.

Efficient and Highly Effective.

- 2-3 Minute **Mnemonic Videos**
- Thousands of **Multiple-Choice Questions** and **Adaptive Daily Quizzes**
- Built-In **Spaced Repetition**
- Real **Medical Imagery** Alongside **Consistent Characters**
- **Customizable** Content
- **Mobile Apps**

*Read the [IRB-approved research study](#).

Students who used **Picmonic** saw up to **50% Increase** in exam scores after one week & **331% Increase** in long-term retention of high-yield information.

Comprehensive. Convenient. Engaging.

What Paramedic Students are Saying

“ Picmonic covers many topics with very short videos, which is so helpful because we learn so many things in a short amount of time during Paramedic school! On exams, **I can't help but think of the awesome Picmonic mnemonic devices!**

- Matthew K., Paramedic Student

” ” I love Picmonic because I have always liked cartoons, and I am a visual learner. This combined with Paramedical topics is a golden combination! **Thank you Picmonic!**

- Ries, Paramedic Student

Features for Educators

With **premium access**, educators can evaluate then integrate Picmonic's video-quiz lessons into their curriculum, helping to engage students and providing a valuable time-saving early intervention tool.
