

A Better Way To Learn

Picmonic is a radically different learning platform for a radically different generation of students. By transforming forgettable text into memorable mnemonic characters and fun stories, students remember more, excel in school, score higher on exams, and dominate the FNP, ACNP and more.

Picmonic's audiovisual mnemonic approach develops deeper understanding of key concepts, proven more effective than existing books or flashcards*.

1,600+ NP School Topics covering 16,000+ Key Facts

Anatomy & Physiology
(180+ videos)

Epidemiology
(10+ videos)

Fundamentals of Nursing
(180+ videos)

Microbiology
(230+ videos)

Obstetrics
(60+ videos)

+ more!

1 Million Healthcare Student Users

Plus thousands of recall questions and adaptive Daily Quizzes
Intelligently adjusts to a student's needs, to increase retention and combat the forgetting curve.

**In a controlled research study, students using Picmonic saw up to a 331% improvement in memory retention*

Free Trial Access for Educators

Our vast library aligns to your curriculum so you can quickly find Picmonics to share with students or use during lectures. Integrate Picmonic into your classroom and help students learn more in less time.

Available on web and mobile

Why It Works

Picmonic delivers a research proven, multisensory, highly effective online learning experience that enables students to understand concepts easier and remember them longer, accelerating overall mastery.

In a randomized, double-blind, controlled study, the Picmonic Learning System was compared to text-based review material and found that students saw up to a 331% improvement in memory retention.

What Students Are Saying

“

*The true power of Picmonic becomes evident when I'm able to accomplish **hours worth of studying in a fraction of the time**. Picmonic takes the phrase "high yield studying" to the next level.*

- Avram
Creighton University

”

“

*I am a visual learner and truly found picmonic helpful, so I can give honest testimony to how great it is and how much it helped me. **I honestly believe I may not have passed Pharmacology without it.***

- Josephine Taylor
Texas Nursing Student Association
